Targeted e-blasts

NeuroNews offers targeted e-blasts to companies and conference organisers.

- E-blasts can target a database of over 6,500 specialists.
- These communications can be sent to the whole database or be targeted by country.

£800

per 1,000 email addresses

Educational supplements

NeuroNews publishes educational supplements on topics of interest to cardiovascular specialists.

- Sponsoring a supplement offers a unique opportunity for you to broadcast your company's core message to your target audience with an educational focus.
- The content can be based on the company's profile, a new product, drug or medical device.
- Supplements are inserted in NeuroNews, reaching the entire readership or selected countries.

Cost: POA

Advertorials

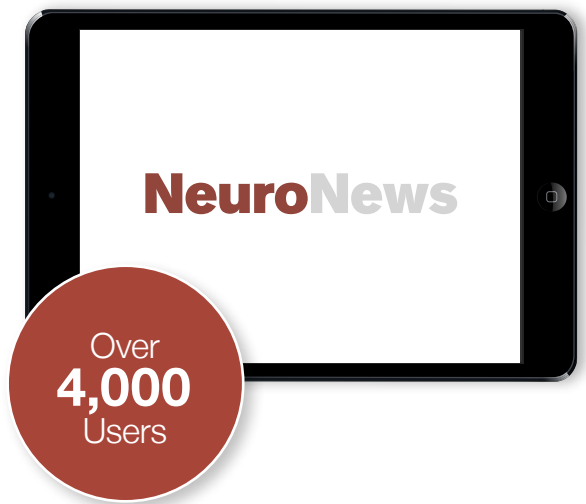

NeuroNews publishes advertorial articles which are designed as legitimate news articles and published under the word "Advertorial".

- The content of an advertorial can be either produced by the NeuroNews team or provided by the client - in this case it would be edited to match the newspaper style.

Cost: POA

NN app

The NN app carries the latest news in the neuro world, as well as conference information and coverage. It has been downloaded by over 4,000 users. The NN app is available for iPhone, iPad and Android devices. Exclusive sponsorship package available.
